

PowerSchool Overview

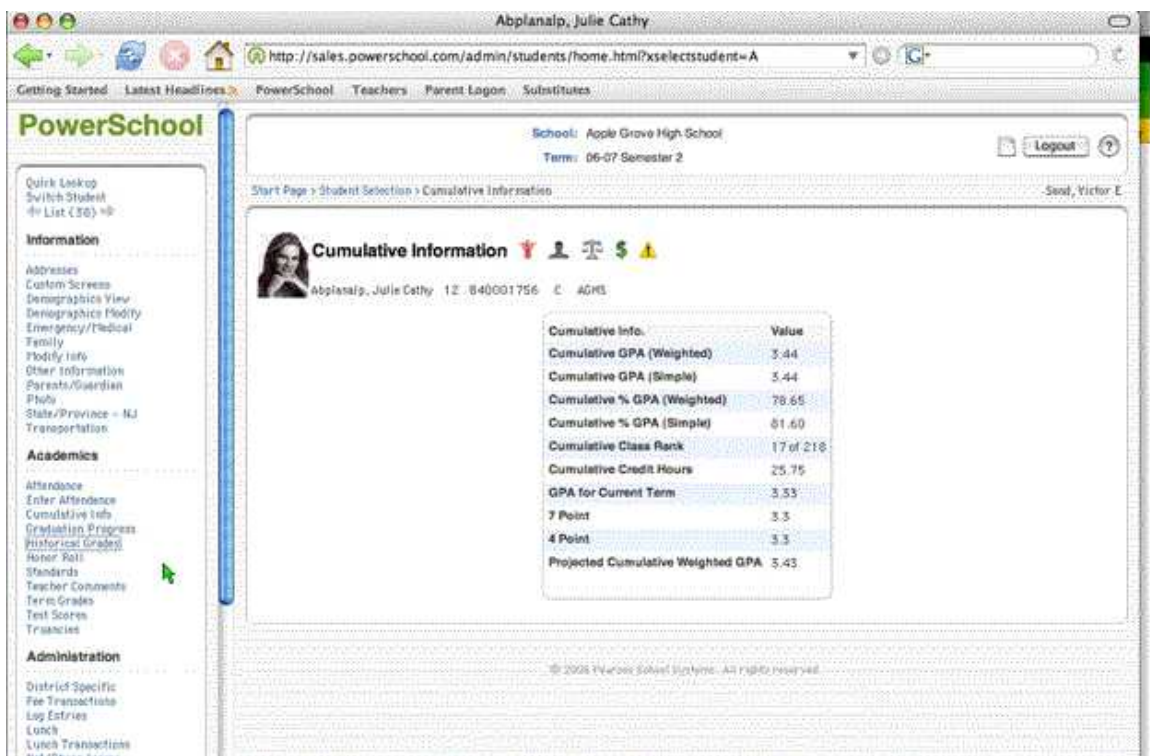

PowerSchool allows different types of group accounts to be set up (teacher, administrator, nurse, whatever we want), and all account preferences/privileges are customizable – similar to Centerpoint.

- All information can be available to all groups; any group can be restricted from viewing any piece(s) of information

Screenshots

Here are several screenshots from PowerSchool to give you an idea of what it looks like and how it functions. A couple quick notes:

- 1) It is entirely web-based just like Centerpoint.
- 2) The custom screen and custom field features allow for a great deal of growth and customization so that ALL of our needs can be met.
- 3) The only feature that seems to be missing is a Requisition system like we have in place with Centerpoint. However, this *should* be possible to replicate using the custom screens and custom fields features (see pages 7-8).

The screenshot shows the PowerSchool web interface. The browser address bar displays the URL: <http://sales.powerschool.com/admin/students/home.html?xselectstudent=A>. The page title is "Abplanalp, Julie Cathy". The school name is "Apple Grove High School" and the term is "06-07 Semester 2". The page is titled "Cumulative Information" and shows the following data:

Cumulative Info.	Value
Cumulative GPA (Weighted)	3.44
Cumulative GPA (Simple)	3.44
Cumulative % GPA (Weighted)	78.65
Cumulative % GPA (Simple)	81.60
Cumulative Class Rank	17 of 218
Cumulative Credit Hours	25.75
GPA for Current Term	3.53
7 Point	3.3
4 Point	3.3
Projected Cumulative Weighted GPA	3.43

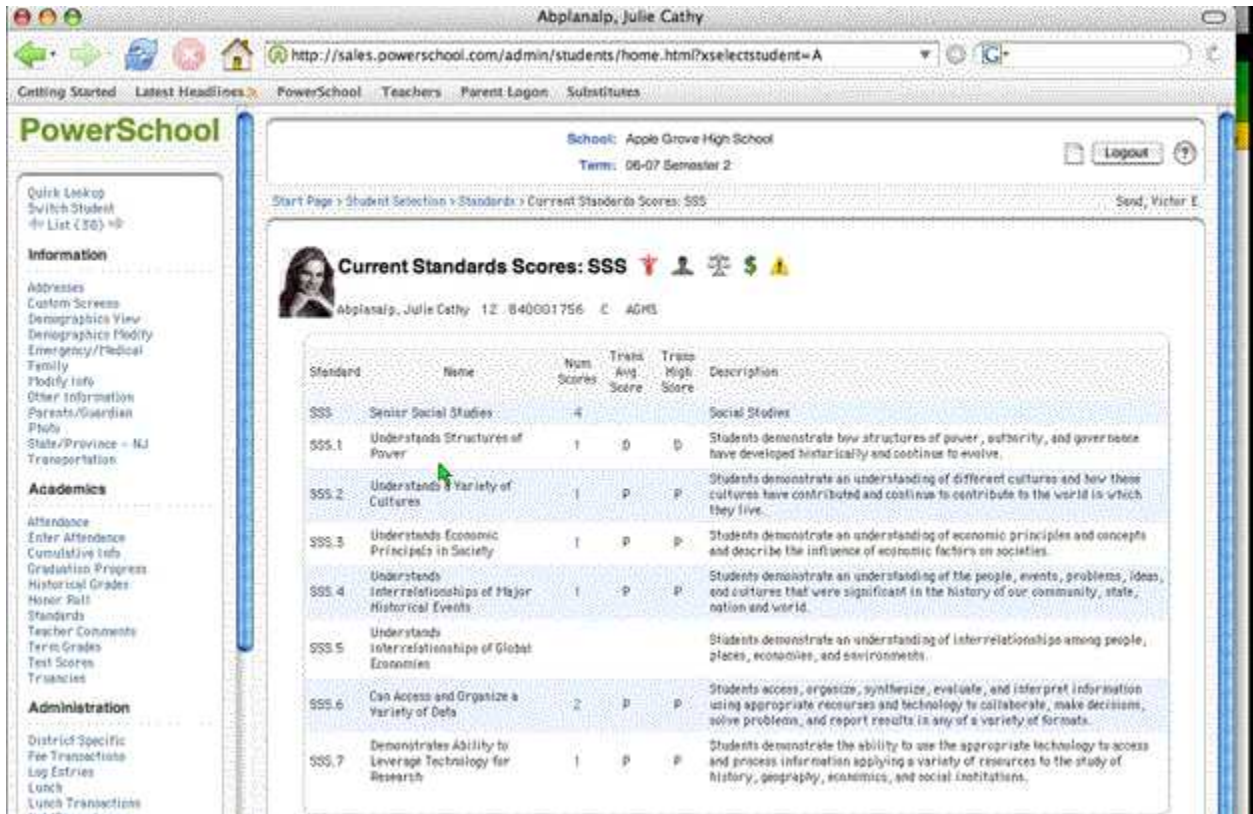

The left menu provides quick access to all areas of PowerSchool – similar to the Centerpoint dropdown menus. In this screenshot, an administrator is viewing a student's cumulative grade information.

PowerSchool Overview

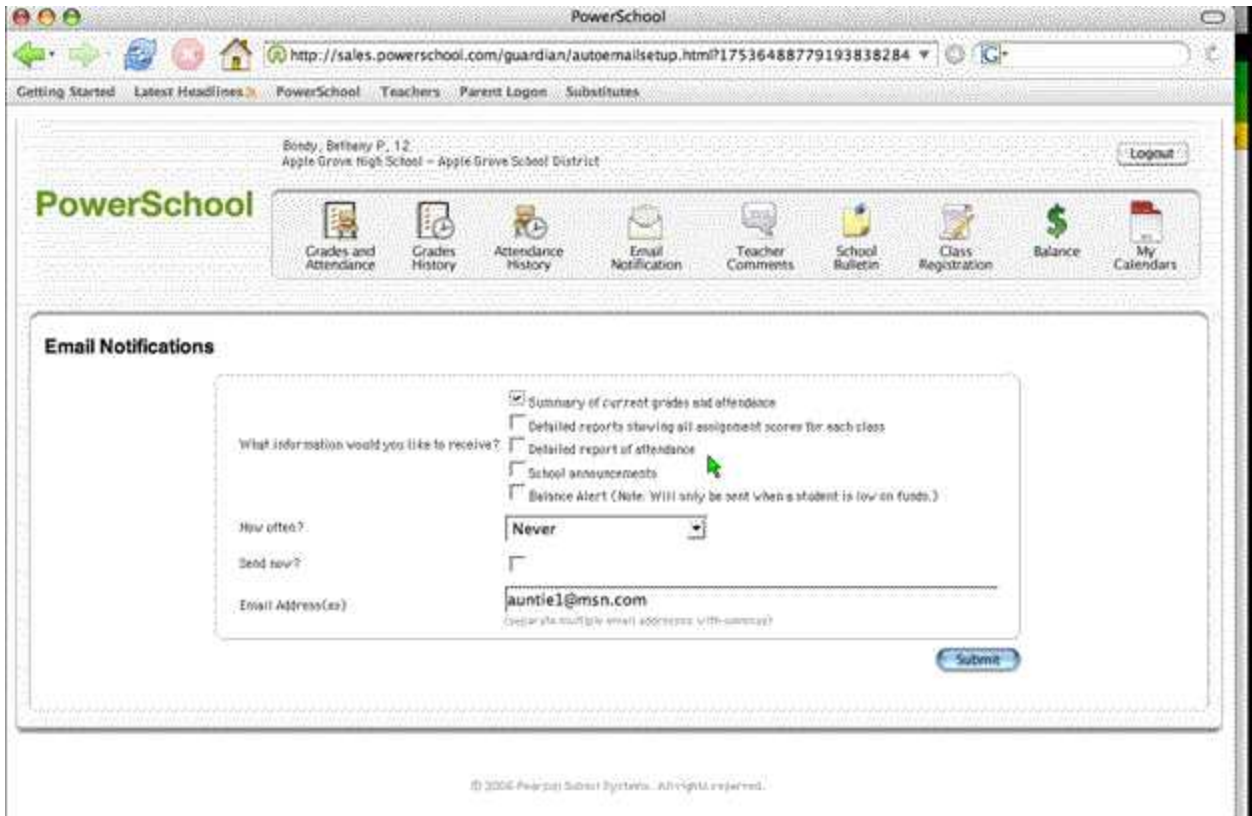

PowerSchool allows for easy import of state standards.

State standards can then be (but don't have to be) used in gradebooks in order to produce a standards-based report card.

PowerSchool Overview

Parents/guardians can request email notifications (e.g., a weekly report on assignment scores for all classes or an attendance report) to be sent to an email address of their choice.

A look at the teacher view in PowerSchool – this teacher has 2 sections of Weight Training. Gradebook, reports, and other information is easily accessible.

PowerSchool Overview

Inside one of his Weight Training classes, this teacher looks up more information about one of his students. A drop-down menu provides quick access to tons of information.

A school bulletin feature is incorporated directly into PowerSchool – similar to Centerpoint’s Announcements
