Timed Practice

1. Have partners reread "The Viz Phone Does It All!" in a 1-minute timed reading. Have them record the number of words read correctly below the passage.

Student Page

The Viz Phone Does It All!

You've never seen anything quite like Bolt's new Viz Phone. This tiny cell phone allows you to:

- take photos of your friends,
- connect to the Internet,
- send text messages, and
- play games.

The Viz Phone by Bolt combines features of a digital camera with those of a powerful cell phone. You can use your cell phone to take photos and send them to friends across the nation. Of course, with Bolt's new Viz technology, each call you make will be crystal clear.

But that's not all! If you buy any of the Viz products, you'll be able to connect to the Internet and download games.TM You'll be amazed at the

games' colorful and amusing graphics. You also can add your favorite screen savers and send text messages.

The Viz camera has a zoom feature and a portrait flash. This allows you to capture the exact image you desire in any light. The screen supports thousands of colors. It provides a sharp picture for you to view photos, screen savers, and games. The caller ID screen allows you to identify all callers at a glance.

Mark Matthews, star of screen and TV, has this to say about his new Viz. "I've never had such a great phone! It lets me stay in touch with my friends. I merely push a few buttons to play a game, send text messages, or take photos of my family."TM
