

5
min.**Fluency**

1. Ask students what fluency in reading means. (It means being able to read quickly, accurately, and with expression.)
2. **I will read aloud. If you think I am reading with fluency, give me a thumbs-up. If you think I am not reading with fluency, give me a thumbs-down.** Read aloud from a text of your choosing. As you read, change your tone, speed, and accuracy.
3. Ask students why it is important to be able to read fluently.
