Quick Letter Naming *m*, *M*

Gather the letter cards. Mix and stack them. Model how to name letter cards quickly. Ask students to decide if the letter on the card is *m* or *M*. If the letter card is *m* or *M*, have students say the letter name. If it is not, have students say not *m*. Once all the cards have been identified, mix them and repeat the activity at a faster pace as a group. Repeat the activity again, at an even faster pace with individuals. Continue until time is up.

Restate the letter and have students repeat it.
