

Summer Journal

Aimee Chang

June 18 –August 18

Narrative-

-What was your favorite bedtime story when you were younger? Summarize its plot and explain why you like it so much.

My favorite story when I was younger was Little Red Riding Hood. The plot of this story is that a little girl with a red coat and she brings goodies to her grandmother. Then when she arrives at her grandmother's house there is a wolf that looks like her grandmother because he dressed like her to get the goodies and to eat little red riding hood. Then she meets with the wolf and he is still dressed like the grandmother and so when they meet she asked a lot of questions. Then she knew that the grandmother wasn't like her so she thought it was the wolf. Then a hunter came and chased him away. This is also why I liked the book Little Red Riding Hood.

Descriptive Writing (with sensory details)-

-Create a never-before-discovered bird or animal. After you describe how it looks, tell more about it – such as what unusual things it can do, what it eats and what kind of sound it makes.

The animal I would create is an animal called a panaroo and a panaroo would be a panda and a kangaroo. It would look like a kangaroo body and the head would be like a panda and its gentle face. The color would be black and white. It could climb trees to get bamboo and it will eat bamboo. Also it will bounce really high in the air. It would eat bamboo, leaves from trees, and lots of fruit. It would make a soft gentle sound and it would be calm.

Persuasive Writing-

-Is it better to have to have siblings or to be an only child? Choose a side and write an essay to defend your choice.

I would rather have sibling that to be an only child be because you might be really lonely and you might want someone to play with it would be great that to be alone and it fun have a brother or a sister. A brother and a sister is a great friend too and they can take you places. They can also play with you when you are board. This is what I think about having siblings are better that being an only child.

Letter-

-You have just been given the name and the address (whom you do not know). Write about yourself to that person.

Dear ben pal.

Hi my name is Aimee and I'm your pen pal and I am 11 turning 12 in august. When is your birth? My favorite thing to do is swim and go bike riding. Do you have any hobbies? There are a lot of things I like to do and I am good at school I like to help out at my school. I like school because I am smart and nice. I like to read sometimes. Do you have any good things about you?

Your pen pal,
Aimee

Dialogue-

-Do you think students should or shouldn't wear uniforms at school? Write a dialogue between two people who disagree on this subject.

I would like to wear uniforms because you could just pick out your outfit and it is much quicker. Also it is good because we all look the same and there is no difference. The person disagrees because it cost too much and she doesn't want to pay for it. Another reason is that she wants to wear all her clothes and there is less shopping. There is a dialogue about why students should or shouldn't wear uniforms at school.

Compare and Contrast

-Compare the best and worst things about city of Worcester.

The best thing about Worcester is that there are a lot of things to do and I live here. Also all my friends are here. The best thing is that there is ways to get to places with technology. We have the latest technology here and there a lot of things this city has.

The worst thing about Worcester is that there are so many lights that we can't really see all the stars. Also there is pollution in the air because of transportation. There are tons of people trying to get where they want to get. There are lots of cars and it causes traffic a lot.

These are the best and worst things about the city of Worcester.

Free Write

-Beauty is only skin deep

This is true beauty is skin deep. You don't really need makeup to be beautiful. Your skin is you and you are beautiful. Beauty is within you and there are so many beauties in you. So actually beauty is really within you and beauty is skin deep.
